Subject: UIC Area Permits to Powertech (USA)

Dear Madam

My initial thought when I heard of the proposed permits was "are they out of their minds?"

Who in their right minds would risk the drinking water for tens of millions of people, and the irrigation water of millions of acres of land for uranium mining?

I've worked in industrial hygiene and I can tell you that there's no way to make a project like this safe enough, secure enough to risk water for.

Do you realize that around the world there are major droughts happening? On at least three continents? And that has included this continent? Water is our most precious resource right now and it is not worth one penny's worth of profit to risk permanently damaging an aquifer like the one in South Dakota.

Drop this insane plan.
